

ART METAL

METALLIC

Art Metal is perfect for Christmas and Easter, but you can also use Art Metal for frames or as an extra fine point for any other of your decorations.

Try Art Metal on things from the nature e.g. shells, seaweed or leaves – and you will obtain fantastic results.

Fine and shiny metal effect

Water-based metal colour of a very high quality. Art Metal dries waterproof up with a uniform, bright surface, which makes it suitable for painting of large flat areas. Furthermore, the creamy consistency of the colour makes it suitable for fine details, stencilling and for transparent coating with an antique look, due to the fact that the colour does not run.

Art Metal is applicable on almost all cleaned materials, such as paper, styropor, wood, plaster, skin, cardboard, and plastic materials.

Drying time: 5-10 minutes

Available in glasses of 30 ml and 250 ml
