6539 Steel	6567 Turquoise	6561 Gold	

Effekt Metal

Using Schjerning Effekt Metal anything can be transformed into small pieces of art.

Effekt Metal is easily applicable on most surfaces such as wood, terracotta, metal, glass and canvas.

All shades can be mixed with each other.

This type of colour is easy to work with – using a sponge or paint-brush.

A very attractive look can be achieved by placing several layers on top of each other – without covering completely.

Available in 100 ml containers.

ISO 14001:2004
